

2016 Drop-in Flu Jab Clinic Feedback from patients

In 2016, for the first time, we offered drop-in Flu Jabs Clinics. 390 patients attending the Drop-in Clinics were asked to complete a short survey.

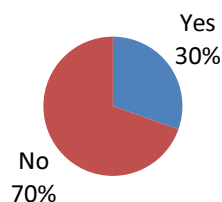

Did you find the clinic useful?

Would you use this service again?

Do you prefer to book appointments for a Flu Jab?

The Drop-in Flu Jab clinics were successful and patient feedback was extremely positive. Therefore, we will offer drop-in Flu Jab clinics in 2017.
