

Patient Questionnaire August 2019

Women's Drop In Clinic

In a previous survey - 96% of patients felt that a Drop In Women's Clinic would be beneficial.

We would now like to trial this service.

Our initial thoughts are a monthly Drop In Women's Clinic on an evening. Women would be able to attend for contraception/HRT, smears and swabs. Is this format and timing a good idea?

100% of patients felt this would be a good idea
